HELLO!

My name is Nathalie “Nat” Wilson, and I am a senior Illustration major and visual development artist. Hailing from Atlanta, Georgia, I’ve always been inspired by my six siblings, graffiti, cartoons and most of all, music! With the help of my auditory synesthesia, I’m constantly listening to music to come up with moods, tones, and textures to create stories and solve visual problems in order to inspire others and my fellow creatives to go out, create, and explore their worlds!
